Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12 and 17-18, drawn to compounds, composition and method of use, when the compounds are non heterocyclic.

Group II, claim(s) 1-12 and 17-18, drawn to compounds, composition and method of use, when the compounds are heterocyclic.

Group III, claim(s) 13, drawn to carboxamide compound intermediate.

Group IV, claim(s) 14, drawn to epoxide intermediate.

Group V, claim(s) 15, drawn to carbamate intermediate.

Group VI, claim(s) 16, drawn to nitrile intermediate.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they are structurally dissimilar compounds and thus lack the same or corresponding technical feature. Additionally, compounds of Group II-VI are not novel, see the document WO 03/029,169, page 82, line 8 - page 83, line 23) which discloses already the preparation of intermediates disclosed in claims 14 - 16.

In view of the complex nature of the restriction requirement, a written restriction requirement has been made

**Additionally, applicant need to elect a single disclosed species for the examination, if they elect Group I or Group II, and the claims will be examined to the extent they read on the elected species and closely related compounds. Also,**

**applicants should identify as to which claims read on the elected species.**  
**Applicants is also required to elect single method of treatment for Group I or Group II.**

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
